SUMMARY

I am a software developer who loves to build things. I am new to software development and had a recent career change coming from a background of carpentry. Software development caught my eye because I realized that I would still be building things, just on a computer. My background motivates me to learn new techniques in order to efficiently get the job done.

PROJECTS

Swapi- Box

Swapi-box is a project is using react that fetches data from a Star Wars Api. On load the site should display some opening credits from one of the movies. The site should have three buttons, one for people, planets, and vehcles. On click these buttons should fetch the data and display cards for each category. Each card should also have a favorites button to toggle on and off. If the view favorites button is clicked then all the cards that have been favorited should be displayed on he screen.

- Tech Stack- React, SCSS

Weathrly

Weathrly was my first project using react. It fetch's data from an api and gives us data based on the weather for a current city. The data needed to be filtered on search and display a current forecast, a 7 hour forecast and a 10 day forecast.
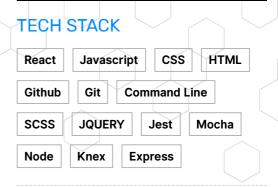

- Tech Stack React, CSS
- https://github.com/TFisch/dm-tf-weathrly

Movie Tracker

In Movie Tracker we fetched data using the The Movie DB API and used the date to allow the user to sign up for an account and select and favorite movies based on preference.

- Tech Stack, React, Redux, SCSS
- https://github.com/dmiller1623/movie-tracker

SKILLS

TECH STACK

React Javascript CSS HTML

Github Git Command Line

SCSS JQUERY Jest Mocha

Node Knex Express

EDUCATION

Turing Front-End Engineer Program

School of Software and Development

📅 04/2018 - 11/2018

EXPERIENCE

Manager

Sprouts

📅 01/2011 - 03/2013   📍 Boulder, CO

Company Description

- Learned about team management and handling inventory on a large scale

Pro Cabinet Solutions

Company Name

📅 01/2014 - 02/2018   📍 LakeWood, CO

Pro Cabinet Solutions

- Entered the career field with no experience. During my time I was promoted to lead tech responsible for installs and on site mantenainc
